

## 2022 Silver Lake Fundraising Campaign -- Almost \$50,000 Raised!

The 2022 Silver Lake Fundraising Campaign, a joint effort of the District and the Silver Lake Protection Association (SLPA), was an overwhelming success thanks to your generosity! Almost \$50,000 was raised in the early months of 2022.

The SLPA used the proceeds to pay outstanding expenses related to the formation of the District. The SLPA also funded the 2022 invasive Eurasian Water Milfoil lake treatment, which was completed in early June. Please refer to the 2022 Lake Treatment Map below. All excess funds raised will go to the District for future lake treatment programs. \$5,805 has already been received by the District.

The District will take over lake treatment responsibilities in 2023. In addition, the District will also sponsor the preparation of an updated Aquatic Plant Management Plan and will apply for a WNDR grant to help offset the cost of the Plan.
